Italy
We have all returned safely from our 3 week graduation tour of Italy. The children thoroughly enjoyed themselves and if you could only have seen their faces when they walked into La Casa Dei Bambini, the first Montessori School set up in 1907 in San Lorenzo. They really could not believe that it was exactly like their own. They walked from one set of materials to another exclaiming “we have that too”.

We also enjoyed visiting the attractions in Rome, such as Vatican Museum and Sistine Chapel and the Colosseum. We explored Pompeii and climbed Mount Vesuvius. We sailed around the Aeolian Islands looking at active volcanoes bathing in volcanic mud baths and observing the Neolithic remains in the area on the islands. We finished our journey in Florence visiting the Uffizi Gallery of Academia, Leonardo Di Vinci’s museum and even the town where Pinocchio was born. The weather was fine, the food was beautiful and the children grew.

Grandparents Day
This was enjoyed by many lovely and enthusiastic grandparents, it is so lovely to see them in the classrooms and even more beautiful to watch them interact with the children whose grandparents were unable to attend. We had our morning tea in the Hall and by all accounts this worked very well. Thank you to all the Beeliners for organising and providing all the food. I would like to take this opportunity to acknowledge the grandparents that have generously given to our Capital Gifting Campaign.

CHRISTINE BURT (Grandchildren: Christiana and Nicholas Burt)
DR GRAHAM DALE (Grandchildren: Mia and Phoebe Dale)
ZIGMAS and EVI BUDRIKIS (Grandchildren: Lydia and Frances Budrikis)
TOM and GAYE ATKINSON (Grandchildren: Lucila and Isabel Atkinson)

What is really inspiring about these gifts is the beautiful comments about the school in the letters that came with the gifts. If any of your parents would like to donate to the Capital Gifting Program please let me know and I will meet them or send them a gifting pack.

We have a very busy term ahead of us. Keep your eyes out for information regarding our Centenary Celebration, Chill Out Music Night on the 22nd November and the children’s movie night the evening after. There are so many reasons for us to celebrate please put these dates in your diary and come along.

You should all have received your children’s NAPLAN results now. If you have any queries or concerns please make a time to meet me. Our school fared very well we will publish the comparative results in the next newsletter.

Epipens in first aid kits in schools
Due to a new initiative by the Government of Western Australia all schools now have EpiPens in their First Aid Kits. Principals are advised to ensure that members of staff have the knowledge and skills to respond to an anaphylaxis emergency. Teachers and teacher assistants have training once a year to recognize and treat anaphylaxis. It is possible that a student who has not been previously diagnosed will have their first anaphylactic reaction at school. Administering adrenaline can reverse potentially life threatening symptoms such as difficulty/noisy breathing, swelling/tightness in the throat or loss of consciousness and/or collapse, within minutes.

For further information: posters, fact sheets and brochures can be downloaded from the Western Australian Department of Health Anaphylaxis website www.health.wa.gov.au/anaphylaxis

Head Lice
Please remember that all children’s long hair needs to be tied up while at school. This has really helped to reduce the incidence of nits at school, so we need to keep it up!

Waste Wise advice from Plant Ark!
Carton confusion can cause them to end up in landfill rather than the recycling bin. Here are 3 common myths about milk and juice cartons that we intend to bust.

Cartons are not recyclable:
False!
Cartons are made mostly of cardboard which can be turned into new products. A 1-litre Tetra Pak fresh milk carton for instance is made up of 88% cardboard, a renewable resource. Forest Stewardship Council (FSC) labelled Tetra Pak packages are on the increase globally with 26.4 billion produced in 2012, up from 18.4 billion in 2011. Most councils in Australia accept cartons for recycling. To find out about services and drop off locations in your local area, visit RecyclingNearYou.com.au or call the National Recycling Hotline on 1300 733 712. You can leave the lid on:
Mostly false!
Always check with your council to be sure, but your best bet is to leave the top off. Lids can cause problems for the recycling machinery and makes the process less efficient. Removing straws and rinsing empty cartons can also assist in the recycling process. Whilst lids are usually not for the recycling bin, their environmental credentials are improving with Tetra Pak introducing Green Plastic into their caps. Unlike regular plastic that is made from fossil fuels, these caps are made from ethanol distilled from sugar cane. Cartons are wax coated:
False!
Cartons do not contain any wax at all. Milk and juice cartons are made from a material called liquid paperboard (LPB), which is constructed from cardboard with layers of plastic, and in the case of long-life products, a thin layer
of aluminium foil. For more than 40 years LPB has been used to package a wide range of foods including milk, juices, cream, custard, sauces and soups.
